St. Vincent De Paul Continues to Inspire Concordians in Acts of Charity Amidst Covid 19 Pandemic

By: Maria Isabel Gamil

St. Vincent de Paul Patron Saint of all Charitable Works was known for his Vincentian Mission in helping and sharing with the poor people. Inspired Concordians continue the mission by giving 250 packed lunch to the Construction Workers in Quirino, Manila last September 26, 2020 after the Holy Mass celebration.

It was a blessed Saturday for Concordians in celebrating the Feast of St. Vincent de Paul in the

Lady of Miraculous Medal Chapel. Attended by CC personnel and live thru YouTube streaming.

Rev. Fr. Rolando Limjoco Jr., CM led the sacred homily as he shared the importance of the Gospel of God in helping and sharing with the poor people in which is the key of true blessed happiness in life, even in this Pandemic.

Daughters of Charity Sisters with some personnel led the charitable mission after the Holy Mass, as they went to Quirino Highway Manila giving 250 packed lunch to construction workers. The safety of the involved

personnel and sisters were practiced as they sanitized their hands, wore protective masks and face shield and did social distancing while giving food to the workers.

The people who were given the food were very thankful and blessed for the graces, Concordia College shared.

Appreciation and priceless smiles among the faces of the workers for the charitable mission serves the successful mission of St. Vincent de Paul through his Vincentian community today that his advocate will continue in helping and sharing with the people who are in need even in this Covid 19 Pandemic.

Live Stream Holy Spirit Mass of Concordia College Generates 1200 Plus Online Viewers

By: Maria Isabel Gamil

Mass of the Holy Spirit twining with First Friday Mass via online streaming in our Lady of Miraculous Medal Chapel generated 1200+ CC attendees both from the students, lay partners, parents and alumni.

It was the first time for Concordians to have the Eucharistic Celebration under the New Normal, as Covid 19 pandemic ceases to stricken our privilege of social gatherings especially going to churches for everyone's safety. But Concordia College as a Catholic Institution continues to profess its Catholic identity through the celebration of the Holy Mass. The said Eucharistic celebration was held

last September 04, 2020 at 08:00 AM. with Reverend Father Rolando Limjoco, CM. as the mass presider.

Personal presence of the members of the Concordia College community was limited in number due to adherence to protocols set forth by IATF.

According to students and teachers, it has been customary for catholic schools to open and welcome the School Year with the mass of the Holy Spirit, invoking the presence of the Holy Spirit for guidance and protection of all educational institutions.

Even if it's a new norm of praising the Lord, the program started with solemnity, peace and presence that heartily felt as the hymn was played in the online streaming.

Fr. Rolando Limjoco delivered his homily with his

important message and to quote, "The Lord is reminding us that trusting is not only sacrificing or giving people of something with someone dahil kung minsan it has also become getting rid of someone especially who are in need. Jesus wants us to be involved in the charity and be part of his life through helping the needy as well."

Despite this pandemic, Concordia College will never stop praising the Lord and its mission to become advocates of St. Vincent and St. Louise de Marillac in helping the poor by extending it to the four corners of our home.

The 1200 online viewers didn't let their faith be unfelt as they sent warm and heartily messages to the comment box of the online streaming video.

CONCORDIA SPONSORED WEBINAR ON MANAGING YOUR MENTAL HEALTH AMIDST THE COVID-19 PANDEMIC

By: Maria Isabel Prindiana

The Concordia College as a learning institution held a webinar entitled “Managing Your Mental Health Amidst the Pandemic” last November 19, 2020 via Google meet and YouTube streaming. The School invited Dr. Ma. Cristina Esquivel – Saldivar and she talked about how we can handle and strengthen our mental health especially right now that we are currently in the middle of pandemic.

The topic was shortly introduced by Mrs. Rizza Feeney, whom also led the prayer for the afternoon. She also welcomed the IBED Principal, Ms. Nereann Tuano for the Opening Remarks. Ms. Tuano later on welcomed the Guest Speaker, Dr. Ma. Cristina Esquivel – Saldivar, the currently

Internal Business Adviser and Deputy Executive Director of In Touch Community Services, Inc. and a part-time faculty at De La Salle University, Counseling and Educational Psychology Department.

After the introduction, Dr. Saldivar shared the true meaning of Mental Health for the doctors since people have different perspectives towards the topic. Dr. Saldivar said that the Mental Health is a state of well-being in which the individual has the complete control over her or his life. Mental Health is really important since it shows what kind of a person an individual is. She also said that COVID – 19 Pandemic is taking a huge toll in our lives in a way that we are limited to do the things that we are used to do. The pandemic limits us from interacting with our friends and family, and also it becomes one of the reasons for the decrease of employment rate in our country. Dr. Saldivar also shared information that drew attention

from the attendees. She shared about the stigma brought by the pandemic to mental health problems. She mentioned some ways to control our emotions and handle them more appropriately. She also shared some good pieces of advice about the types of worry and what type of worry we should worry about. Dr. Saldivar mentioned some techniques or strategies to lessen stress and to prevent thinking too much.

Indeed, the seminar is very helpful in this times when everyone can't help but worry as to where the pandemic will bring us to. Truly God sends people who can inspire and bring some enlightenment.

HED UTILIZES LMS PLATFORM IN TRANSITION FOR PRELIM EXAMS

by: Jade Santillan

The Learning Management System (LMS) is also known as Vincentian Collaborative Learning Environment (ViCLE) of Concordia College is designed by Mr. Norman Picorro, the school's technician and IT together with Mr. Alex Gutierrez, the School's IT Director. The LMS was maintained in order to provide the needs of the school community.

The Concordia College's Learning Management System makes the online learning of the Concordians more effective and efficient especially in this times of the pandemic. Last month of September, the Higher Education Department held its Preliminary Exam where the college students took examination online.

However, it is not perfect the first time. The students encountered some struggles regarding the exams in terms of

Concordia connectivity, availability of Learning time and some information, how to access the LMS. In line with this, the Student Portal was filled with question about the schedule of exam and where the students will see their account to be able to access the LMS.

The students were not the only ones who struggled in accessing the learning system. The teachers also had the hard time designing, converting and uploading the exams in the system.

The school administration continues to upgrade and develops the Learning Management System by adding some features to it so that the students will have an easier access to the System.

STRENGTHENING SCHOOL AND COMMUNITY COLLABORATIONS AGAINST DANGEROUS DRUGS AND SEXUAL HARASSMENT

Concordia College held a webinar called “Strengthening Schools and Community Collaborations against Dangerous Drugs and Sexual Harassment” on December 5, 2020, via google meet and YouTube Streaming. The school invited Police Lieutenant Amie M. Centro – Tiu, Phd, JD as a guest speaker to share some information about the Dangerous Drugs and Sexual Harassment.

It was started with a prayer by Ms. Ma. Victoria Diolola. After the prayer, the Master of the Ceremonies, Mr. Buendia welcomed Mr. Alexander Pablo for his Opening Remarks to introduce the topic. Mr. Buendia introduce the afternoon’s Guest Speaker, PLT. Amie Centro-Tiu, PhD Crim, Jd, the current Chief of Station of investigation and detective branch police station 10 in Pandacan, Manila. Police Lieutenant Tiu is also a review director and lecturer, she’s a professor at PPSC, a PNTI Leadership Awardee and a Forensic Chemistry Specialist.

Police Lieutenant Tiu talked about the RA no. 7877, it is an Anti- Sexual Harassment Act of 1995 and according to Police Lieutenant, the State shall value the dignity of every individual, enhance the development of its human resources, guarantee full respect for human rights and uphold the dignity of workers, employees, applicants for employment, students or those undergoing training, instruction or education”. She shared some examples and scenarios of sexual harassment and sexual offenders to easily identify if our rights are being neglected.

Police Lieutenant Tiu also talked about the dangerous drugs as a part of the webinar, where she shared some information about the history of drugs cases in the Philippines and also the estimated rates of cases of drugs abusers in the Philippines. Police officer Tiu also shared some way to prevent young people from doing drugs, and one of it was, choosing our friends carefully because there’s a possibility that we adapt their unhealthy habits. She also viewed some negative effects of illegal drugs in our system.

There were a number of students who shared their concern and questions when the open forum was opened, Police Lieutenant answered the honestly. In the closing remarks of Mr. Darell Lanuza, he thanked PLT. Amie Centro-Tiu for sharing some awareness to the students. Ms. Giorgia Geurerro led the Closing Prayer to culminate the activity.

Have A Cup Of Coffee

How's the Internet Connectivity in the Philippines

By: Maria Isabel Gamil

Last June 2020, Statista said that the overall quality of internet connection of the countries in the Asia Pacific, Philippines average connection speed rank was the lowest in 2017, published by Martha Jean Sanchez in Inquirer.net.

As the Pandemic Covid 19 came, the demand for internet connection were high and students' online learning was one of the major contributors of poor connectivity issues. President Rodrigo Duterte builds the Department of Information and Communications Technology (DICT) to solve and improve the internet connectivity in the Philippines.

Even if there is an improvement in the connectivity, we cannot avoid the fact that we can still have problems along the way. For Concordians, it may be normal if they experience static audio, log video feedback, low Mobile Data and interval connections from the Network providers they have, but it will not be a hinder for them to continue their studies. They made sure to get in touch with their respective Professors and Instructors to be updated with the subject, prepare their Internet connection before the Minor and Major examinations that will happen. Now, my question is, are you one of us?

Editorial

To Be or Not To Be: Taboos In The Implementation Of LMS (Learning Management System)

By: Maria Isabel Gamil

The E- learning is a web- based learning management system that enables students and teachers to extend the teaching methodology on a virtual learning environment. This has been the major medium of many different schools and Concordia College made sure that their students learning will not be compromised because of the Covid19 Pandemic. VICLE (Vincentian Collaborative Learning Environment) was launched in the Concordia Webpage since 2018 that gives access to students' synchronous tasks such as quiz, test, minor or major examinations from their respective courses up to enrollment of their subjects.

There had been issues that professors, instructors and students encountered during and after accessing the system. For professors and Instructors, they have limited options on the type of exams to use, the time frame given is an issue because it allows the students ample time to use their other device for cheating. On the other hand, students failed to enroll their subject codes to another area in the LMS that needs to be looked into. Some students failed to take major examinations due to their internet connection problem.

Concordia administration was advanced in taking up the measures in addressing the issues of the LMS both from teachers and students. Readily, they prepared materials through video tutorials on how to manage the site by the VICLE Guide that the administrators, professor instructors and students may use. At the same time, ICET department work hand in hand to support the needs of the stakeholders in fixing their encountered issues.

Teachers should not worry on the integrity of the system because it has features that prevent any leakages of their exams made. These are, the strict limited time in taking the exams and the random choices of the questions that examiners may have which is distinct from one another. Progressively, teachers learn to manage the encoding of exams that will not take long time because they should have good internet connection.

Students are encouraged to report their issues regarding the enrollment to LMS directly to their teacher, administrator or through email to prevent any problem on the actual date of the examinations.

All of us have our first time and it is very brave for everyone to take the risks of having the appropriate materials to implement for learning. Concordia was able manage and continue improving for the welfare of education through online learning.

One Of A Kind

By: Maria Isabel Gamil

While we are on the comfort zones of our home, taking our online classes having soft seats and the leisure time to enjoy things in life. There are exceptional people you will encounter that are amazing with the hope and inspiration they bring to our Youth today.

Meet Jevilyn Brigole, 23 years of age and a first year BSBAM (Bachelor of Science and Business Administration Major) who bravely facing to achieve her dreams despite the situations we are having now.

She is a working student and currently staying in their retail stall at Roxas Sta Ana Manila. Instead of focusing on her online classes and doing projects, she continues to attend the Google meetings and works on her

assignments while assisting and serving their customers.

How do you handle your time as a working student? Where do you always do your projects and class online?

“Sometimes it’s hard for me to manage my time especially in submitting requirements to school and there are times I was confused while selling in front of the customers. I always have my online real time in the stall, as well doing my projects and assignments if there is a free time.”

While selling, she manages to do her assignment well.

Why do you think every student should continue his/her dreams in life like you do, despite this Pandemic?

“For me, even there is no Pandemic I have already my dream of becoming a

policewoman someday. When I see Policemen it makes me more determined to pursue in finishing my studies because I don’t just want to become a seller all my life. That is why I’m doing this for my dreams.”

What can you advise to students who are losing hope to achieve their dreams?

“I can advise to other youth and students out there, that whenever there is an opportunity for them while they’re young, take it, don’t waste, take action and use the hardships you’ll encounter as a way to fulfill your dreams in life as God will be with us in taking the path through success.”

Having an interview with her, you can say that one day, all of her hard work and perseverance will be paid off by success.
